

Online Seminars to be Held in 2022

In 2022, entrusted by the Ministry of Commerce of the People's Republic of China, Hangzhou Regional Center (Asia-Pacific) for Small Hydro Power, briefed as HRC, is planning to host 15 online seminars on different topics, which are detailed in the table below. Those seminars aim to share China's technical expertise, managerial experience and proven technologies with developing countries to help with capacity building and self-development of respective nations, enhance exchanges and communications in certain areas, deepen friendship and promote common development.

All the training programs for 2022 will be held via ZOOM platform in English language for free and will mainly cover online presentations, virtual visits, exchange and discussions and online cultural experience.

HRC is a well-known international organization which is professional in organization of trainings, seminars and workshops on topics including but not limited to water resources management, renewable energy, rural electrification, green development and climate change etc. for developing countries. Up to date, HRC has completed 129 seminars in total and trained 3875 officials and engineers from over 100 developing countries.

If you meet the qualification and are interested in participation, please fill out the registration information through the link attached.

Attachment:**1. List of Training Programs to be held in 2022**

No.	Seminars	Duration
